Are you looking for the latest in cutting-edge learning and brain research to incorporate into your teaching practices? Is your school looking for a high-quality, low-cost professional development event for its opening or year end faculty meeting?

THE BRAIN, LEARNING & APPLICATIONS was created to offer ideas, applications and knowledge regarding the latest research coming from the neuroscience field. Practitioners, educators, researchers and psychologists will come together to interact around exciting potentials for impacting the teaching-learning intersection on behalf of learners today. Strategies for classroom use will be offered along with opportunities for discussion, exchange of ideas and networking.

This program has received rave reviews, earning an overall rating from participants of a 4.9 on a scale of 1-5! You can start the year with a great event, provide a venue for on-going professional conversation with your colleagues and help build networks among teachers in local and regional schools. Best of all, you will return to school with dozens of **great new ideas and strategies** that can be **immediately applied in your classroom.**
